Choose from high, auto & night mode.

Air Quality Indicator
Choose from standard, soft light or turn it off.

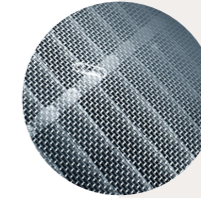

Power ON/OFF

Built in Timer
Built in run on timer, select from 2,4 or 8 hours.

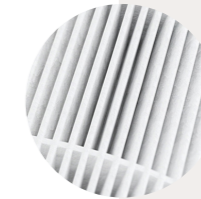

Filtration

Unique 360 degree design
3-in-1 high efficiency **HEPA 13** filter

Pre Filter
Intercepts large particles such as dust, hair, lint. This helps extend the effectiveness and longevity of the rest of the filter.

HEPA 13 Filter
Removes smaller micron particles, which helps capture 99.95% of airborne particles. Most commonly fine dust, pollen, mould spores.

Activated Carbon
Designed to capture & reduce odours caused by things like pets, cooking, smoke & more.

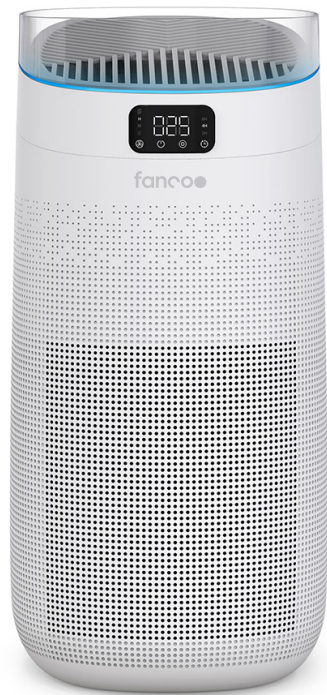

Replacement Filter

SP-APFCBR400-FI

The unit has an inbuilt filter replacement warning - based on 2,200 hours of operation.
